Simply Focused on You

Bring life and light to your world with the CT-S1 – a minimalist design allowing you to focus solely on the music. Savor the pure essence of the keyboard's musicality while developing your unique style. Functionality and design that is all about you, with a simple interface, and a color palette to suit every aesthetic and complement your décor. Create the perfect atmosphere with the CT-S1's sleek look and uplifting sound.

Lighten your mood and brighten your day.

Sound That Truly Moves You

Bring vibrancy and emotion to your music with the CT-S1 – a keyboard like no other. Featuring AiX Sound Source, this innovative technology is designed to enable electronic instruments to produce the perfect tones and, combined with the integrated acoustic sound system, brings each note to life.

Recharge yourself with inspiration. Feel energized and encouraged to play more.

Carefully selected tones

Explore the CT-S1's range of 61 carefully selected tones, from ADVANCED TONES, which fully utilize the AiX Sound Source, through to CASIO CLASSIC TONES, which will take you on a trip down memory lane through CASIO's history.

Horizontal Bass Reflex System

Expect the unexpected – behind the compact frame lies a powerful and clear sound thanks to the new bass-reflex mechanism, bringing out the potential of each single tone.

Surround

You can enjoy expanding your acoustic experience through its sleek body whenever you play or listen to your favorite music.

Touch Response

As responsive to touch as a piano, the keys absorb your emotion and articulate it perfectly.

Tone Memory

You can register your favorite settings, including pre-set tones, layers and reverb types, and access them quickly when you wish to play specific music or songs.

Simple user interface

With intuitive operation, you can select 7 main tones, including piano and organ, and 4 tone variations (Standard, Advanced, Modern, Vintage) for each.

Portability

Perform anytime and anywhere you like – conveniently sized to be easily portable, the CT-S1 can be powered by batteries, making playing stress-free and enjoyable, just as music should be.

Chordana Play app

Practice your favorite songs anytime and anywhere. Choose from the 50 built-in demo songs, or use the downloaded MIDI files to expand your playing repertoire. Once you're finished, check your progress with the Chordana Play app.

Bluetooth® MIDI/Audio

Install the WU-BT10 Wireless MIDI & Audio Adaptor (sold separately) and use your smart device to play your music through the CT-S1 speaker system. The adaptor also enables you to connect to Chordana Play and other MIDI-compatible apps and devices.
